

AUDIT

We have 4 audits-

1. Medication double check audit
2. Nursing record audit
3. Patient identification audit
4. Environmental audit

Medication double check audit

1. Two staff verified the medication order
 - This is from the system or medication print out.
2. Two staff calculate the medication dose
 - Most of the staff doing
3. Two staff double checked the medication calculation
4. Prepared medications or IVF were kept in one tray.
 - While preparing medications take extra trolley and trays, keep each patients medications separately.

NURSING RECORD AUDIT

1. Nursing information sheet.

- This is mandatory to fill during admission time.
- If patient coming from other ward check it. if not inform the ward.

2. Nursing assessment.

- Pain assessment, Falls, Wound assessment, Pressure sore, Norton scale, Transfusion monitor, Blood sugar assessment, Central line assessment and Ventilator parameters.

3. Nursing kardex

4. Nursing care plan

5. Vitals signs

6. Total intake and output chart

7. Medication administration

PATIENT IDENTIFICATION AUDIT

3 KEY POINTS-

1. Audit on nursing staff

- The nurse identifies and understand patient correctly on admission using 3vs method
- Verbalization, Visualization, Verification

2. Audit on the patient

- ID band is clear, legible, visible and clean.
- ID band is on RT/LT wrist, infants should be on the ankles.
- Newborn babies- 2 ID on their legs
- ID band from other hospital should be removed
- Color code ID band- allergy or falls

3. Audit on the ward

- Patient with same names should not be in one room
- All patients should be identified as boy (male) or girl (female)

ENVIRONMENTAL AUDIT

1. Hand Hygiene

- Hibscrub, Handrub, Tissue rolls are available in washing sinks, dust bin black and yellow available or not.

2. General environment

- Corridor, rooms, floor, endorsement table, computer keyboards, medication trolley, medicine fridge – clean, free from dust.

3. Patient area

- Equipments, iv stand, cardiac monitor, IV pumps, syringe pumps, feeding table, curtains, bed sheets, locker – clean, neat and tidy

4. Dirty utility

- The room clean and free of inappropriate items.

THANK YOU
